GENERAL INFORMATION

This directory of the University of Illinois Chicago Professional Colleges includes lists of officers of the various colleges, hospitals, and institutions of the University, administrators of the State Department of Public Welfare whose offices are located on the campus, committees, a directory of agencies located in or near the Medical Center District of Chicago, and a classified telephone directory.

The alphabetic list of staff members beginning on page 25 includes all members of the Chicago Professional Colleges, associated staff members of the State Department of Public Welfare, and a few others engaged in closely related work. Persons whose names are marked with an asterisk (*) are married. The title shown after each name is the official title for the current year. No distinction is made between full-time and part-time personnel nor between those serving with salary and those without salary.

For mailing purposes, use addresses listed below. All street addresses are in Chicago and within postal zone 12 unless otherwise noted.

USE OF TELEPHONES

GENERAL INFORMATION — If you are going to be away from your telephone, arrange to have someone answer it. If you are in doubt about a number, look it up in the directory first. Please do not call Information until you check the number in the telephone directory. Be brief on all of your calls.

LOCAL CALLS — To make a local call from one extension to another within the buildings served by the University's intercommunicating telephone system, remove the receiver, listen for the dial tone, and dial the extension number desired.

CHICAGO CALLS — To make a city call, dial "Operator" and give her your name and extension number. Hang up the receiver and she will ring you back. When you hear the dial tone, dial the first three letters of the exchange and all the accompanying numbers. If you have a plan system, follow the above instructions, but do not hang up. When requesting outside parties to call you, always give them your local extension number in addition to MONroe 3900, to aid them in having their calls completed without delay.

TOLL CALLS — Charges are made for all calls to telephones listed in the Suburban Directory and for long distance calls. No toll calls, telegrams, or long distance calls are to be placed except through the University switchboard. For such calls, after giving the University operator your name and extension number, tell her whether the call is "business" or "personal," so as to facilitate the billing of charges.

CHICAGO UNDERGRADUATE DIVISION CALLS — To make a call to the Chicago Undergraduate Division, dial 580 or 581. These are tie lines direct to the switchboard at Navy Pier. The telephone number there is WHIttehall 3800.

IN CASE OF FIRE — First, dial "Operator" and tell her the name of the building, the street address of the building, and the number of the room in which the fire is located. Next, turn in an alarm at the nearest University fire-alarm pull box. Then try to put out the fire. Remember that the "soda-acid" extinguishers should never be used where electric wires are involved in a fire.

TO CALL THE POLICE — Dial extension 555 and give the necessary information including your name, the room number and building where help of the police is wanted, and the nature of the trouble.

REPAIR SERVICE — If a light is out or a window pane is broken or other similar types of trouble, call the routing office during the daytime, extension 221; after the normal closing hours call the power plant, extension 207.
